Statistics show that most Jewellery is UNDER-INSURED...

Nicky Loram of Jewellery Services Incorporated, and a member of the Jewellery Council of SA, has 20 years experience in the Jewellery Industry. Not only will your jewellery be professionally and accurately assessed for Insurance Valuation purposes, but you will also be advised on which items to specify, repairs that may be needed to any worn or damaged items and receive a detailed Valuation Certificate on examined items.

A PROFESSIONAL VALUATION IS AN ESSENTIAL SAFEGUARD IF JEWELLERY IS LOST, STOLEN OR DAMAGED. ENSURE THAT YOUR CLIENTS' JEWELLERY IS REASSESSED EVERY 2 YEARS FOR PEACE OF MIND THAT IT IS INSURED FOR THE CORRECT REPLACEMENT VALUE.

"While most jewellers charge a percentage of the value of the jewellery being assessed, and in most cases require that the jewellery be left with them, my personalized service includes travelling to the client and valuing the jewellery in the privacy of their home or office (Cape Town & Jhb areas).

Not only is this safer and more convenient for the client, but they don't have to part with their valuables and wait to have them returned after a few days or even, at times, a few weeks.

My fees include a call out charge and a cost per item. This works out much more cost effective.

Should you, as the broker, not require me to view the jewellery, an outdated valuation can be sent to me and I will forward a replacement value on the particular item/s.

It is essential that clients understand how important valuations are to ensure peace of mind when claiming for lost or stolen jewellery items."
